

MCKK Portal

MYCHECK4KOLONKANSER

NCSM

Aim

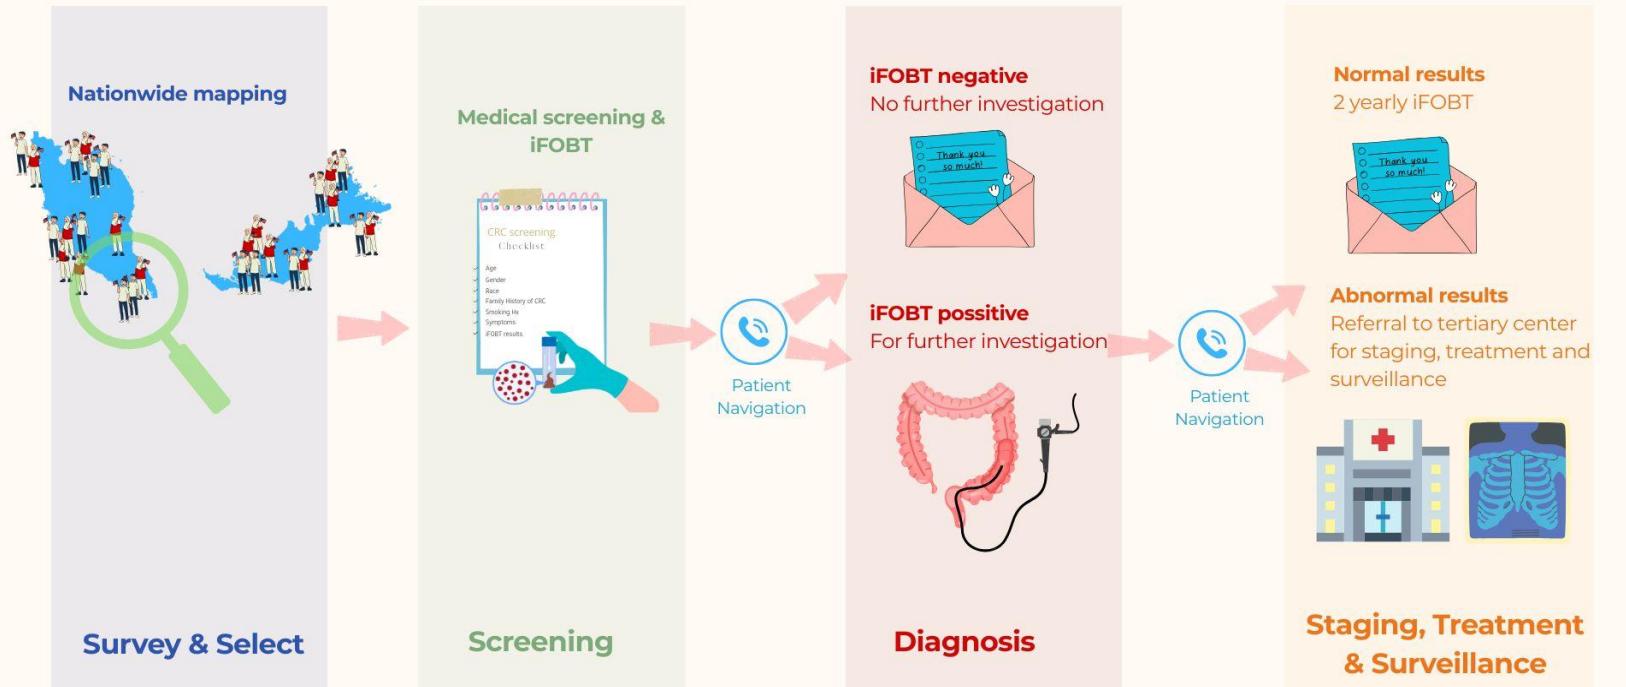

To create a portal for Colorectal Cancer (CRC) Screening Program that enables:

1. Information exchange and communication between different thematic areas
2. Patient data management
3. Billing

Miscellaneous

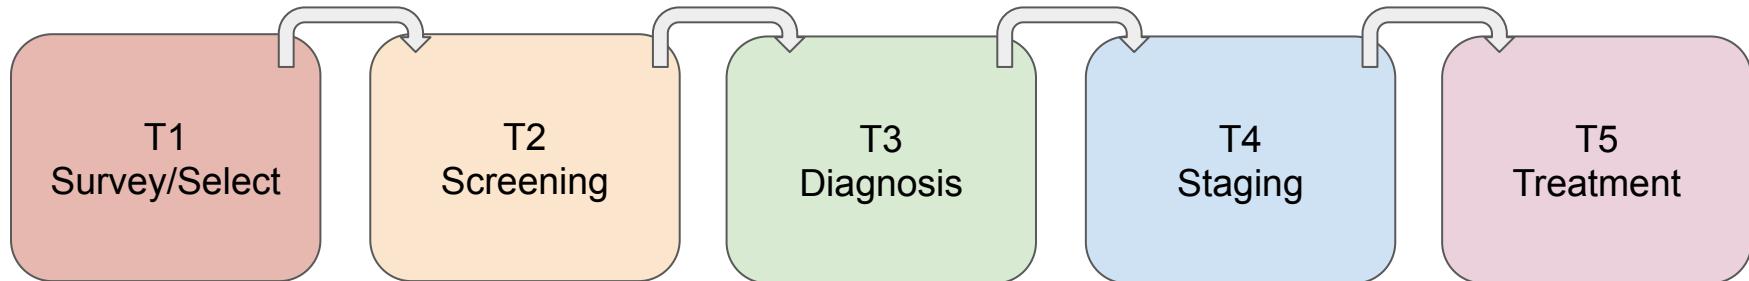

4. Allows notification for patients regarding appointment dates
5. Allows notification for HCW on new patient/results uploaded

Illustrative Strategy of MYCheck4KolonKanser framework

The 5 thematic areas have specific roles however are dependent on each other. Need a means of communication between the respective thematic areas.

Thematic Areas

Data collection of eligible population for screening

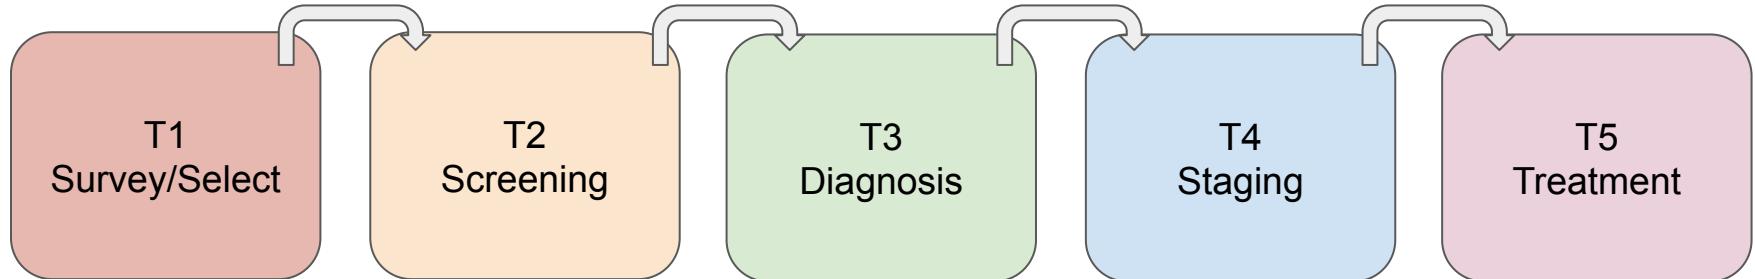

iFOBT (stool sampling) of selected patients

Colonoscopy for iFOBT positive patients

CT scan for CRC patients

Treatment for CRC patients

- PIC in T2 to key in patients names for screening
- Upload necessary documents (referral letter, IC)
- Patient decide colonoscopy centre

Data collection of eligible population for screening

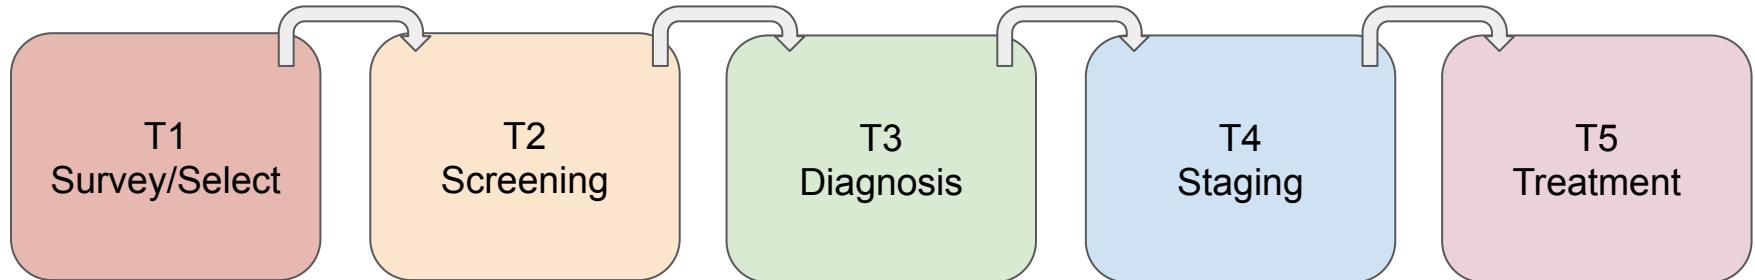

iFOBT (stool sampling) of selected patients

Colonoscopy for iFOBT positive patients

CT scan for CRC patients

Treatment for CRC patients

- PIC in T3 to verify patient details and arrange for prescope assessment and colonoscope date
- After Dr review and colonoscopy to upload documents in system
- Billing auto generated after process completed

Data collection of eligible population for screening

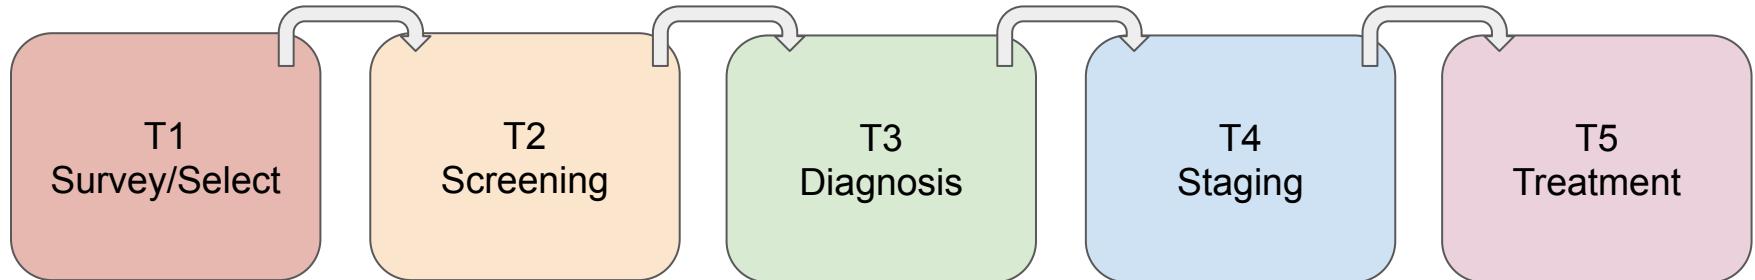

iFOBT (stool sampling) of selected patients

Colonoscopy for iFOBT positive patients

CT scan for CRC patients

Treatment for CRC patients

- CRC patients relay to T4 for further staging
- Normal colonoscopy patients to be relayed back to T2 for future surveillance plan (data management)

Data collection of eligible population for screening

iFOBT (stool sampling) of selected patients

Colonoscopy for iFOBT positive patients

CT scan for CRC patients

Treatment for CRC patients

- Relay CRC patients to T5 for treatment
